Updating Student Information Online

To Parents/Guardians,

Every year school officials request parents/guardians to review student information and make needed changes. We will again offer all school district families the opportunity to (a) update important medical and contact information, and (b) provide handbook and form signatures online, specific to each school and grade level. The district is utilizing **InfoSnap** to replace the paper forms traditionally sent home at the beginning of each school year.

Beginning August 6th, emails will be sent with information and links to access the **InfoSnap** website. You will be receiving a separate email for each of your children that are enrolled in the district. Information you update for one child can be automatically updated to your other children, saving time with the process. The login you create to access **InfoSnap** will remain the same, but you will be receiving a different "snap code" for each child that you update.

Details on how to create an account and access the **InfoSnap** system will be included in the August emails. If you do not receive an email by August 13th, please contact the school in which your child attends. Families that are unable to complete the information update online may request paper forms from their assigned school.

Thank you, in advance, for supporting this "greener" and more efficient approach to school-home communication. Have a great start to the 2018-19 school year!

Thomas P. Stauffer
